LABORATORIS FELTOR

OUR COMPANY

Laboratoris Feltor was founded in 1981. Originally based in Hospitalet de Llobregat [Barcelona], it was initially focused on: Developing a cosmetics line for mothers and children for a prestigious international company and creating a "sports cosmetics" line in partnership with a major sports industry company.

In 1990, it began moving into its new facilities in Sant Celoni [Barcelona] and became **a certified pharmaceutical laboratory for products intended for topical use.**

Today, its facilities have a surface area of 16,000 m². Product quality and service-mindedness are the cornerstones of the company's progress a company firmly committed to its ongoing involvement in the current and future technological development of our industry.

LABORATORIS FELTOR

OUR SERVICES

Laboratoris Feltor is contract manufacturing. We don't have an own products. We are your production side.

Feltor's commitment to service translates into helping you find the best product/process combination. At our pilot plant, we perform process simulations for an optimal price/performance ratio.

Our technicians will assist you with any process of formulation, reformulation, paperwork, formalities and proceedings with competent authorities.

We operate in accordance with the established quality agreements, reducing control costs and enhancing flexibility. **The ISO9001, ISO14001, ISO13485, ISO45001 and GMP certifications ensure optimal capacity and performance.**

OUR SPECIALITIES

The quality of the products and the will of service are the support which hold up the evolution of the company which has the strong purpose to continue taking part in the present and future technical development of our area.

Feltor Laboratories has certified its installations by the Ministry of Health and the General Pharmacy Direction, and it is the only one contract manufacturer in Spain and probably in Europe, which has authorization to manufacturer the following specialities.

VALUE CHAIN

YOUR PRODUCTS IS SAFE IN OUR HANDS

From the beginning of the development of the product, our R & D department is responsible to carry out, the tests to guarantee the safety of the product.

- . Challenge test
- . Patch test
- . HRIPT
- . Accelerated stability in ICH conditions.
- . Test of use
- . Security report
- . PIF

During the useful life of the product, our R&D department, can follow the stability of the products, doing a stability ON GOING, and carry out the required PQR reports.

Our regulatory department, will advise you on legal matters and inform you of any regulatory changes in the raw materials.

Don't you worry about anything.
Feltor is a Full Service specialist.

We take care of everything from the purchase of raw materials, to the delivery of the finished product anywhere in the world.

OUR PRODUCTION CAPACITY

Laboratoris Feltor has reactors **from 50 kg (pilot batch) to 5.000 Kg** to be able to manufacture from liquid solutions to high viscosity creams.

We specialize in manufacturing products for baby care, mother care, suncreams, atopic care, skin care, hair care...

Regarding filling, Feltor has packaging lines, in which we can fill doses **from 1 ml to 1000 ml** in different containers, tubes, bottles, jars, airless...

About the secondary cartoning, Feltor has vertical and horizontal cartoning machines, labeling machines, cellophane machines, shrinkwrappers.

100% QUALITY OUR PHILOSOPHY

Laboratoris Feltor is ISO9001, ISO14001, ISO 45001, ISO 22716 (GMP's Cosmetic), ISO 13485 certified, and meets GMP's standards for pharmaceutical laboratories.

These regulations are not simply a means of compliance, but form an integral part of our business management philosophy.

We can also manufacture cosmetic products under the Cosmos Natural and Cosmos Organic certification.
